“If by a "Liberal" they mean someone who looks ahead and not behind, someone who welcomes new ideas without rigid reactions, someone who cares

about the welfare of the people-their health, their housing, their schools, their jobs, their civil rights and their civil liberties-someone who believes we can break through the stalemate and suspicions that grip us in our policies abroad, if that is what they mean by a "Liberal", then I'm proud to say I'm a "Liberal."

— John F. Kennedy,

“I predict future happiness for Americans, if they can prevent the government from wasting the labors of the people under the pretense of taking care of them.”

— Thomas Jefferson

... those societies that have produced great creative and political achievements have almost always given a high place to the physical vigor of the individual citizen. For it is only upon foundation of individual hardiness and vitality that we can build an “exercise of vital powers along the lines of excellence” a firm believer in education, Mr, Kennedy also stressed physical fitness, for he said Young people “must have and opportunity for physical development as well as for intellectual growth” The life and words of President John F. Kennedy

I for owe to this heroes the never left amd alone thank you so much, when democracy die in darkness, and in that dark side all his people ne er left me alone, thank you and to never left me alone in this battle Andres landaeta thank you for insitived and motivated me to go to school and to understand the even when i was born in other country the eduaction is fundamental no matter where we ended up, as we grown older, I know you were there and ooin know yoiu still here never leave me tru tthe sound of a bird or tru a touch of the

wind i will always be tank full for all the crazies moments the best memories are those the we leave behinds and boy you left me with multiple to be grateful and laugh, like when we lost Antony on the train, because wrong stop in the metro, or when we use to dance At town danceboutique you soul be forever with me, adn hopefully because the motivations towards me going to school and i hope 'we can dance in what that the fox say because the front line people have put their life in risk with this process and its time to make the best of us the god and the universe with all ancestor want us to be good and to do good forn the students

* Dre landaeta's Philanthropy Student loans
Forgiveness * hope we can make this little tini step for them thank you .

This is how "WE" maintain the light in the darkness as we see there is bad and good and we must know and understand this type of phenomenon it happens in our community and we must and need to not just criticize but try to understand the we as humans. Don't know everything as we will try that path in life there for when we started to bein part of a side of the story witouth not knowing the other person story we are contributing to a misunderstanding and who can be the next target is our children's as generations to come the malignant will be exist, we must never forget that.

An apology if I disrespect anyone with my opinion, there for to you and anyone the contribute to this

process, homeschooling with teachers from anyone the bring a book to and help those the we can't have access to education tru and status or lower income it has being a challenge but here I am writing and trying to understand what a beautiful world would we have as we see new writers and poets have find their passion either tru the bad or good story they tell, as we not know everything but we must know this are my type of heroes saving the economy selling books around the world tru a momentum but we must not abomdom the ship this is when we work together as one community and help me to understand as well to make the best for the people as we know wealth is precious thank you for all the hard work and to bare with me tru this time, We must protect as well from those who trying to harm or stabling a harm as this we build it together and with respect and dignity we can make a difference and grates achievements in the community as we can address problems to make a New states that have different languages and customs from those of there are more difficult to maintain. most effective options is to take up residence in the new state. By being there, and live in the city we can address problems quickly and efficiently. He can prevent the local officials from pundering our territory. The subjects wil become close contact with those who their purpose is to prevent from those who come to our city and harm's business and our neighborhoods we can create a safe and secure city there can be every corner with light and footage to protect our residents and property

Therefore, those who are inclined to be good will have more reason to show their allegiance to the new state and those who are inclined to be bad will have more reason to fear as we will work together to create better conditions for those
Invaders will think twice before
Invaders will think twice before attempting the state.
There must be something we can do as we know there we can create a state where we can have holidays we secure as we enter in the state or city we can create policy for all where we feel safe and comfortable as we can let anyone enjoy and
afternoon with family in any corner of the city and knowing they will come home safe, as we will go to work and know the our sister are safe the they will make it home safety, creating a place as “We” can have a place where we work for the people and special those in needs, where we don’t look the other way because we thing we know how that feel, we can have the same problem but each person struggle different there for its not the same,

As we can understand the we can have differences believes but we can respect each individual as they are carrying their ancestor believes, as respect to them we must respect each other and respect the others as long it’s not harmed and to those who harm others we must condemn them and not allow those behave in the community there will be those

who will enter the community to damage our neighborhood our small business sometimes they struggle enough for them to deal with more damage, some businesses turn they light off because they couldn't afford the damage and the build a business for tiny as its it takes time, patience, and the corage of not giving up because at that moments is when we do t see our closest friends or families, let's do it for the people and that's one big reason why the founding father create the government as in Congress it should have a healthy legislature process to seek for the best entre for the people.

If the process is uninformed, policy is misguided, if it lacks participation authoritative decisions may be viewed as illegitimate Members must therefore be crafter not just passer of laws the must be willing to exploit procedural opportunities in a positive way a way that will benefit both the Congress and the nation. Congress should encourage processes that force legislators to vigorously defend and promote their positions in a complementative and interacted manner as a healthy legislative process U.S.

Congressman, delivered an address, "Founders of the Republic", in which he connected the concepts of founders and fathers, saying: "It is well for us to remember certain human aspects of the founders of the republic. Let me first refer to the fact that these fathers of the republic were for the most part young men. And those are the grates peoples as we pay respect to them we must fallow their The exact phrase "Founding Fathers" was first coined by U.S.

Senator [Warren G. Harding](#) in his keynote speech at the [Republican National Convention of 1916](#).

Harding later repeated the phrase at his [March 4, 1921 inauguration](#). While U.S. presidents used the terms founders and fathers in their speeches throughout much of the respect and be grateful for our "Founding Fathers" as they give us the opportunity to express our opinions but let's not forget the [importance of the Founding Fathers is to seek and protect the rights as nation to understand](#) the history. Beyond this, the criteria for inclusion varied. Historians with an expanded view of the list of Founding Fathers include [Revolutionary War military leaders](#) as well as participants in developments leading up to the war, including prominent writers, orators, and other men and women who contributed to the American Revolutionary cause to protect our people and our nation against the threat of other nations, there for there as respect we must understand the importance of the person in power whom they serve and represent our people and not incentive neither violence against our brother and sister,

[A MOMENT OF SILENT FOR THOSE WHO ARE NOT HERE IN THIS WORLD TO TELL THEIR Story WHERE Some of us have the AUDACITY TO ABUSE THE POWER, and because of that we have lost some of human soul and will always be remain in our](#)

history of the unknow story as they were not
avialable to tell the story, either as friends, family, or
our childrens. The future generations need a world
where we dont look the other side when there are in
needs this is why We need to protect the next time
someone is not feeling that they belong to our
community, there for a public health must needed in
our school, where we dont judge their problems but
trying to emphatized with them as we come from
there, is our students are healthy we wont need to

comes to the economy of the country to contravene

held The right to participate in a democracy through
political contributions is protected by First
amendment but the right is not absolute our cases
have held that congress may regulate campaign
contributions to protect against corruptions or the
appearance of corruption at the same time we
have made clear that congress may not regulate
contributions simply to reduce the amount of
money in political participations of some order to
enhance the relative influence of others.

Ingratiation and access... are not corruption. The

What really make West Germany [and] The United States fitting subject for the study of comparative constitutional law is their commitment to political democracy and constitutional government special in the areas of civil liberties and human rights. The relation of constitutional doctrine to philosophy, history and traditions and sociology with methods of constitutional interpretation what then is the value comparative constitutional law can provide to Americans with valuable insights into experience of others constitutional democracies. A theory of public goods and right political order can enrich the study of comparative politics right the study of American constitutional law, faith in a objectivity that allows cultural biased perspective to be presented as "neutral".

Distance can be describe as and attend to break away from firmly held belief and settle knowledge as an attempt to resist the power of prejudice and ignorance, differencing calls into questions the neutrality of universality of all criteria it rejects the notion [that] the categories and concepts with which new experience are grasped, classified, and compartmented have nothing whatsoever to do with the socio-cultural context of those who see in terms of them.

civil law and common law, western and eastern, modern and primitive, like or unlike, the distinctiveness of public law in individual's countries seems to me revolve predominantly around institution which arise not only from deliberate

design but also from history and underlying social problems such as religious and linguistic diversity...

public law arrangements are designed as much in dialogue with the past as with the future and the past is likely to be nationally specific.

Institutionally situated functions...

In structural terms, attachment to fundamental rights have a different resonance in different legal traditions. In the English common law right to life has traditionally been downplayed. There are basic human rights that the law does not prohibit but this has not led to a positive contribution to the benefit of the community, we must condemn this type of behavior whether it come from any human, therefore no one should either pretend nor abuse the power that the public have instituted till since 1998, which means that we sometimes let humans suffer either harassment or even to the exposure of some private information that is valuable to the country or sometimes this type of behavior, we must understand that no man is above the law when it comes to harm and especially when it comes to the economy of the country to the detriment

held. The right to participate in a democracy through political contributions is protected by the First Amendment but the right is not absolute. Our cases have held that Congress may regulate campaign contributions to protect against corruptions or the appearance of corruption at the same time we have made clear that Congress may not regulate contributions simply to reduce the amount of

And the journey started with the stock market in a USA for I felt so good and and thought as the time come and go the predictions can be great or bad for anyone in the companies but as my ancestry JPMorgan, Andrew Carniage, How we understand the pathway of justice for the people who are suffering from the virus desease impersonated or invaded of privacy, there so many people still in the batle as underdogs some become undefeated and other defeated tru the vulnerability that exist in the dark side of the wrong hands the some of them would try without caring if you have a wife, husabdn, daughter , or son, and this people are harming the nos just the family but the whole community, some of then leave us with no one in this world because the uncertentive of either dsurvive to those who can control people, to thjose who who have died of this type virus impersonated beig hacked or taken someone else ASSETS, SAVINGS, MONEY, DATA, WE MUST work together on deafeat those who harms tru ciber attack specially to those who are in our land and for the best part and most need to work for the best of our country wheter we need to protect some of those assets, data the it would help us and thats the only way We can be unstoppable if We work together, to best defend what is right and know your rights its part of our job special as nleaders we must as its necessary .. enhance thr ability to protect properly

for the best interest as “OUR” country UNITED STATE as we need to understand, EDUCATE OUR SELF for the privacy of our childrend, elderly and everyone, thats the only way we can do when when it comes to the best of any countryt leaders will look for the best of the country FOR THE PEOPLE AND BY THE PEOPLE, WE THE PEOPLE by the power we need to reinforce the national defense, our special force need to continuum training and assist the country du to an negotiation where boths leader comprehend understanding by creating diliema and concret, how to approach, how to build security and being enable to understand how ciber security work towards the maligne harm the other can do, tru the internet but even when it looks like the waves are calm we still need to be aware of bad intention and demand legal ethos this where goverment who stablsh no mean never stop look for the security of the best of the country for the future how does the vision and strategy and how to have a balance with others country in order to sucides we haas to manage the risk how to build soft, how important its for fund

To all Leaders we must and seek for the best of “our people “ wonder why “we” as leader love everyone when we need to be re-elected or campain, but there when they are in needs either for a roof and or basic needs like people suffering from mental health problems,hunger and depression or seeking a goowe as leader are, why cant we count with any leader whuy we send our people fihght at war instead send

the leaders to see who will win any war the "WE lost
OUR son, husbands, BROTHERS SISTER"
BECAUSE WE AS LEADER HAS AN EGO WORSE
THEN ANY INHUMAN LIVING, our people need
protection and if we cant delivery that we must step
down from were we choose to lead and let someone
else to lead to make sure our people stop suffering
from, wars, hunger, and violence insensitive by leader
the only look for the best between and not for the
best of the people in needs we must condemn cold
wars which can leave us alone
12:02 authority, available to look for any malign that
come on my way

country we must never stop working on be better
as country, community united as a fire fires people
we do not leave anyone behind us the what we
used and know as democracy, its a best as we
know as a united state of america we are one land
and one country thank you for all you guys make
everything possible and no man should be above the
law we are equals and we have same right as
anyone in the planet whether we like it or not that's
what humans right perform we do it for the best of
people. We deserve to be treated with respect and a
dialogue to

Despite the outcome what I as many fellow
american deserve is respect and to be treated with
respect and dignity we cant let the bad side continue
on spreading hatred against us and our people as
one of the battle I face is because all of you because

where all are fighting for a battle whether for the better or for the worse we are equal as any man or woman when it comes to applying the law, as we know already the amount of the multiple schema that is around us special when bitcoin and other coins started despite the COMMUNITY of people, Vulnerable when it comes to someone's privacy and even invading their home. Not many of "US" have survived the invasion of privacy some of them die in the battle due to the someone harms those are "Our" children's, Wife, husband, Mothers, fathers and lovers, this type of illegal activity should be scolded and deprecated to those who are behaving this sort of way, in solidarity to all those who left this world trying to survive hunger, or love in their last minute of life because of their reality the other was delusion the media, and the people of power can be insensitive to this type of behavior as my history will tell it many of them have invaded my privacy and used it in a way to harm I could say for my own experience being a little uncomfortable and unpleasant to see the world is a very dangerous place to live because we are taught to spread hate one to another even when the other person doesn't even know "US" not too long ago a decade as this year walking through it fighting for My Rights, and I still processing this and ask myself a Question to make me understand. Why do people act a and do that know they will harm humans in general and how and for ? to the the people data and sometimes that data it's all your wealth and saving the provide or bring the food to a table and

families and as we see the world and you find many imposter and those imposter are their to tear apart but it make you more strong if you trust yourself and make your value, quality over quantity,

MY story started with silvergate bank a decade ago when started as miner and stock marker, all digital market my desire was to safe so i could help those the community, family, friends and myself, but then i didnt even know english very well at that momemnt anbd i still struggle but I as many others thought it was not justbvok but great since I wanted to comntinum my carreer in tghe usa due to the moving fro m one country to another despite the price to go to school in here (USA) a drastic sadness because i need money to pay for college, i ask myself a question often enought, why would a human pay for a dream ? while we living in the planet I personaly think thats just an insanity, you pay for your dream then continuem on living your life stress out because you left school and need to start working to pay for that, that moment was crusal to keep thinking, they i just decide to continuen on working as busser Agora, never thous the world have people with a dark side more then me or anyone else where i come from is am little vilage many people accuse me of doing something that i didnt do, as god and universe the have being with me i could say some people are just bad as anyone who is just good that will make up anything to see you not succided in life, despite that, from that moment i started

investment on it was because jiust like anyone else we all have a dreams eiither to buy our car , home , or just our coins and money for a better future i have in my life always believe the we are in charge of our desteny wheter is for good or bad the calls we make to the universe is our or what we us the God anyone believe its our desire but I ask even to bless my enemy sometimes they need one pray to change if they dont its not on me, my values and moral not even money can buy, at one kmoment of that time i got hacked and to me i ncouldnt believe how this is not posible i saw people getting pay with my accounts and say it come from la joya california, my stress started because i wanted to start school back and i could not get could money out due tru this s=circuistanca i email USA differents departments at that moment years pass then elections anothers strees where president elected “Mr Trump” another another stress due to the manners towards other humans, there is no needs for any human to speak about others that way we can have different way of seeing the world and as leaders “our” role is to endorse the good and be for the goods of the community and the country itself if it doesnt serve the public it shouldnt be address to any type or law in the matter of our coimmunity “we” must understand and know the by a moral standers not just eduction we can see how a leader will run “our” community or country the way they speak about other or the way we behave in public we could all agree the sometimes leaders dont has to like the opinions of others but we must respect but when it

comes to harms others we must demand justice and apply any legal terms to it, we cant just look the other way just because we can somehow we cant live in a world where everyone is the =same we has to have some of the people who wish us the wporse or theat they want us to fail those are yoiur grates fans, thats why you push to the limits because thats how you earn some respect sometime this whole procces of my life i have expirience the worse and the best and for that i believe that on power and when it comes to Financial outcome around the world of from stockholders contribute to the financial and sustable on the modern world where we can create projects for educationand teach good manners, the time of President TRUMP it was feeling like eternity not just because the insantivezed violent and hate towards “our own people” those people help the economy to the country and no matter what they do they deserve respect, just like I wish it could have at moments when i almost lost hope on figthing for was belongs to me as an immigrant at homeFor example, U.S. companies can be required to enter into joint ventures with Chinese companies if they want to do business in China, resulting in Chinese companies forcibly acquiring U.S. intellectual property. Americans are the world’s most prolific innovators, creating the greatest technologies, products, and companies. They should not be forced or coerced to turn over the fruits of their labor.

The President is also standing strong against the theft of American IP, including defense-related technologies. The costs of intellectual property theft alone to the U.S. economy are estimated to be as high as \$600 billion a year. Such thefts not only damage American companies, they also threaten our national security.

Consequences of China's reported actions may include: lost or reduced U.S. sales, exports, and jobs in key technology sectors; loss of intellectual property or proprietary technology to Chinese companies; loss of competitive position in the marketplace or in business negotiations; and network security costs, legal fees, and other costs

I was teach not to touch what was not mine and for that reason I have known that in this word there where my community supporting me true the process JT they lift me up and they push me to the limits thats why i cant wait to celebrate with all of Them "WE" DID THIS, I was never alone. And even when i lost everyone that was in mental hospital or send me back to El Salvador but i was not ready going to give up on my community this was not just my battle this was "Our, US Buttle and i owe the communnity my respect they saw me when no one of my family and friends saw me all this was thanks to a the family build by the city i was walking again like a baby making his firts steps will say there where many times i thought i was failing but those was just trials to either learn or win but i

never fail i have the love and respect for my city, my people, gtnd my circle and i though my circle was just a dot (me) but no no my circle was getting more bigger everyday, when my own family wanted to put me in a knew th anpower then worse time in have live in political lifetime i will say due to the way he spress about others imagine the someone with such of power speak about humans like and in was i though i will lost all my savings and my investmenty but i have it control of all the wallets so even if they pukll out money the data on my side would move but i have put my data save even under my rocks so i knowhen. Someone wants to harm it can be decide to just delete my stuff or worser just eerase me from histiry but as always say if that will be day to face death im happy to do wheteerr is day night or any hour as my sould is clean i know im in god hearts, the moment someone do something really innapropiete that harm another human, its when i doubt any humans to ask themself, is that good or no ? and if you as that to yourself you already know its not good, even to the thief I smile one day knowing he has stole from me, i can even imagine how they sleep at night knowing that you have done something that could cost someone to lost even faith on on their onw inner itself, some people its all they have some of those people die fighting agaings the imposter who stole identity from them that they were trying to build, as me since the moment they hacked me i coukld not sleep because of the fact that knowing the i didnt even know how i will come back from there its being decade since i started so dont

socialize that often plus they were more about judging since i was the only drinker or did drugs they only saw that on me no one else so i decide to no tell them most of personal life as many of do, but then when was bartending i was doing great, food and roof was never missing till THE NOVEL COVID 19 Hits the usa, then i startedd to to worried more about hown would fix all this knowing in I was and underdog trying again and agian many times i was squisofrenic bevcause everyone of my family thought i was crazy but i am 100% sure THE this is solicited f Board of Directors for use at the Annual Meeting of Shareholders of JPMorgan Chase & Co. on May 21, 2013. you, the undersigned shareholder, appoint each of Marianne Lake and Stephen M. Cutler, your attorney-in-fact and proxy, with full power of substitution, to vote on your behalf shares of JPMorgan Chase common stock that you would be entitled to vote at the 2013 Annual Meeting, and any adjournment of the meeting, with all powers that you would have if you were personally present at the meeting. The shares represented by this proxy will be voted as instructed by you on the reverse side of this card with respect to the proposals set forth in the proxy statement, and in the discretion of the proxies on all other matters which may properly come before the 2013 Annual Meeting and any adjournment thereof. If the card is signed but no instructions are given, shares will be voted in accordance with the recommendations of the Board of Directors but this is not on a negotiation yet, first JPMorgan offer me a job as cfo of medstar and never

interview me or anything they didn't even contact me, this whole time I have been frightening with then trying to get access to the money, as first contact the bank and financial adviser one told me because I was illegal alien they won't be available to do that, they then ask me to send documents to bankers and they send it to them and I wait couple weeks nothing happens since 2019 I have been trying and so far they haven't give me any response even when I bring my statement and all information, the last financial advisor when I ask if she was familiar with the JPMorgan Chase & Co she told me she don't even know what is that, and I call my financial adviser but they have no knowledge of whosoever and what is settlement and I wonder why are they not even trying to be transparent with the employees as banker they should know already at least how to deal with cumulative but I keep trying and they just keeps me on the same page with no answer and I can see everything true their bank account I just keep trying even when I see they are having reservations on hotels under my account as corporate despite all this nonsense with the bank accounts they keep charging me the amount that cost to have a financial adviser I can't understand how as leader of the company don't even try to contact members, I make the complaint on ethical points and as far was 1 year and still no answer, what and unclear and why, because this nonsense I lost friends my relationship with my partner was going from worse to worse and mostly my family decision to put me in a mental hospital due true this

circumstances. But at this moment The city was not given up and for that im still fighting, no negotiations till this moment, and they keep using even though those who have use IT DOESNT belong to then IN told nmyself and for that god and the universe will guide me tru the proccess and I knew it wont be easy, humanity lost the sence of human we have become our worse enemy. and how come i ask ? as the middle of the pandemic started to realize i couldnt do that working as bartender, going to school “carlos rosario international school in washington dc to learn a nettique leguage and Etique, working as bartender and doing schooll plus checking on courts and doing registartion trying to save my data from the evil humans, but i have always have say if god with me who agains me if itsa the time let me face it to do harms is to kill a side of me life is to short to not woke up and smile to creations of human and the unniverse we learn the no everyone is the same, as my time was passing i felt like a day was weeks and a weeks was year, there were many nights the were days and there were many days that where night at the beginning i couldnt undertsand why this was happening the lessong the bring me and the even when i felt lost the community never left me alone for that i nevewer wanted to leave the city, they are my family, many people talk outsideas when i walk in the city and some of then they way there were talking i knew somewone have invade my privacy and i will say thanks to NATHAN I THANK YOU for THE gift “book” where i have the knowlege of educate myself

on how the Man abuse the power wish in many cases this goes by Eccentric attack . often times those attack come from leaders whom his concent is to confuse his opponent and can be a stratagy as tghe one in charge, despite what the other opponent have to world onme concious of culturrall diversity the two world differently when we meet in public life,its not a problem can be fixedor a temporary

The part the make us vulnerable in the world full of hate not knowing the In a world full of uneducated people the only thing they do is harms other for that they are not reasonable to think they are evil as we can't understand why we as minorities has to pay more tteaxes

And killin eachother so we don't succes In the. Style of underdog there were those who speak ill of me and other the have lost their battle in the way of succes as today the word it's not they I need to create a phylantrphy for the students the as we Persue a dreams and we palms of of us don't even get to live to actually live our dreams because after finish school most of us work to pay and don't enogh doing the job the thus child's growing happy to fund the hard reality wr don't want anyone to succeeded In a work for the reason of the bad side of us come out as thinking the help our community when it does it harms us the people the have build me tru seeking transformation at 4 am making sure I was getting to the book ok for the same reason those who stood for me just tonight at the 9 and New York ave. Someone got hurt but anotber human the the only

thing is the at the end whe. He educate himself as hurting someelse the he though it was me he was wrong already on that and himsell feel shame of him because not even an apology will make the man who got harm will make him believe I. The world where humans those who don't have nothing would not want to make those who want to help the community do the better of us, money is just a piece of paper but can provide food for the hunger kids around the world, some of those kids were protected to bring them to live pro-life but now the they are alive we look the others ide and thinking the it's ok to take women's right as we should just let them leave and as leader should help those in needs, we never happy in life wheter we try to do god or bad? And who we are. Are don't even know sometimes what is good or bad just like any other politician as we started with regional tryin to have control of any human and for that let me tell you the wrong side. Of history is sad because the one who laughing now will never understand the hate they have is just no es ese as we know there many people who will be gratefull the getting student loans forgiveness we must seek help on education and try to speak more lounge the way you doing now embarrassing as owner or leader of the company the where at one of my commercial companies at the Marriott marquises as now at 2am celebration their egotistical behavior while I trying to just work in my book and wether they like it or not it's my opinions please askI would be asking the leaders of the company as will mention the you as leader should be ashamed of should let

people have their own opinion what the act of their life and understand the fact that we are not child but act like one is just grossly irresponsible knowing that some people like me working on my own business this is my book and and my true feeling of how we have made us appear in the public world. In time of no sign of hope there were my community Washington DC being there for me i could not be more grateful and because of then helping me i will dedicate my time to dc till we all have a prosper and healthy city, students are my options to create my best out me to make education free, and to pay students loans to those who still in needs, as we believe education is the fundamental key to avocate the oppositye of violence and with that we must secure our schools where “our childrens feels safe “ by that i mean gun violence has increase over ands over we should create a policy with firearm it doesnt mean we will take it from you but edcate those who has for what its, as we know was create d firwell, as they put me on level 7. only did level 7 and 8 then graduate as me having a bachellor from my country icourse and the because the where asking for driver lince in DC so then i decide to create wallet tru wallet, porfolios tru portfolio to see what would be say when i got hacked at the time i look for resources and ask around what start building THE YEAR 2013 start where October 13 2013, Values and vision My mentors DC and PO, Transformative Justice TJ We will

Body

A Corporate build and left me out

For many reason a incorporation To anyone and everyone a historical moment that took in place in the eyes of the greatest creators, who never left me alone

2 Books were my life and those who help me

When this time I was focus for one and only future to have a beautiful the education first and healthcare. And no hunger in the world

A free education for anyone who wants to persuade their educational. To know how to defense thenself from a segregation "WE THE PEOPLE" Deserver the law to aply to anyone who no matter what color or race or type of anymal if they write and speak and are willing to peruse a dream it should be given the opportunity education is hard to understand but a key to success and became a better person., in the society where we live we deserve the best for each an anyone as student as human I learn the the people who help me was book little hous, some people burn the community little house the people have put on their home and churches and then some of the people will broke the window or even put a book on fire to me that was devastating since the only way to educate myself was tru a book as COVID's 19 home schooling alone was not easy house because the education they will provide me

Learning that family is not just blood but those who stood with you when you need them DC never left me there which a make me a better human to learn how to provide the world an opportunity where no one is left behind. WE most work together for the better of our community , country we must need to understand as we can do is be better educating one to onotheer for the beter of future generations.

Thank you to the Community, we as leader need to insentive the peace and educated our generations the are on the way “we must protect our Childrens from this to happen again” just like the way our justice transformative,

Tru this whole time me trying to understand why everytime went ask mostly everyone close door like the whole city its painful to ask but we must do our duty justice due the United State befgore we even started i couldnt understand why i feeel like eveeveryone we agains me but till then i reazlize that we humans are when i first started to dweal with banker was super weifrd and uncomfortable becausee the way we teach our employess is by being transparency withthe company and to understand the everyone is need to be equal and anyone who work from the cleaning to the top office everyonbe deserve to te treeat with respect and dignity whjere if someone needs help where stand by them, or if anyonbe feel like they can talk if anyone if molesting them, we are here for you we must demqands those in company speak to us we would be next to you wheter is the you trying we will not let you go alone as company, community thisa hjow they open opportunitiyes to everyone, everyomne is welcome ., we dids thid togheter and we together can do more thank you, for our ancester

Any country that need help we will be here even for those who have lost so much,

There is no need for us to struggle thru the path of life and to be better of in anything we can work together and learn something new every day, with others country

How stupid and useless this country is being so far left me alone while I wanted to fight for then no home, no food, nothing and this how democracy dies in darkness, the cruel truth that at one point of my life I was someone who felt nothing, empty inside me and it was not because my partner or family or friends but because there is people in the world that will harm till leave others with no hope and I'm sorry for my partner I know you did all you could, and family and friends I understand why you stop believing in me, I can't just imagine being in your shoes, sorry for all I hope one day I get to repay all your efforts and all your work towards me thank you !

Till then I will be waiting for the moment when as any other person either need to face the court to in a word conscious of cultural diversity two words there for we must demand Justice and not let another centric attack and even when it come to leaders

As my days were passing the seeking for a help was daily on a radical world where there were multiple days I sleep in the street because not having a place a friend or family sometimes have nothing to eat because as an immigrant there were just a

judging that we don't unite as Latin community
we don't stick together sometimes I was running
from one place to another because family wanted to
put me in a mental hospital telling me to leave the
fight but what if I don't fight let evil win and there will
not be a lesson to the community the, this process is
very difficult thus when you seek help no one was
trying to even, as I email the mayor many times for
help, for help and when I was hungry I was looking
for some help but sometimes life hits us really hard
the we don't even want to keep fighting but I know
the one day even if it's my last day I won't
stop fighting for human rights as we know in the
world where the bad can harm us, sometime we just
need one person to tell us it will be ok. The night I
slept outside I was scared because I need to hide
very well as I knew there were men on the table for
my head people were coming to where I live and
making to stop fighting for was mine and for the
right to fight as human I went from one place to
another asking for help I couldn't understand but at one
point I contacted the 4.5hr world wide for the help I
was trying to commit suicide 10 months ago when I
got was me the I wanted to die and truly
the bad thought I almost killed myself and call the
healthcare despite all the problems I. The human world
there are human rights and on the

THE Financial outcome around the world of from stockholders contribute to the financial and sustainable on the modern world

We can let time do the same as being done before, and history can't repeat itself if it doesn't serve the public special on every investor or stockholder of companies of the general outline of part of English legal history; history Which lies on the other side of the accession of Edward I. the charter of the first book are allotted in to various branch in law and hope companies are allowed to explain why they have being guilty when it comes to who deserve the right or the vote as investor new are equal in the corporate business incorporated, the lack of transparency of multiple companies are implemented equal opportunity diversity was created for corporate so the choose who is welcome to the C-suite as keyword I believe the many investor as it's their right to be selected and to stay and be part of the companies as anyone else from then employee the clean the establishment to the one in office it's our duty to keep working for the best of our employees.

While the government Me too incorporate was created to insensitive the cruelty of multiple companies leaving people behind as cutting personal staff which to me it's unacceptable we must need to understand there are other way to cut

Today April 12 the world still not even the fact the family and friends still call me crazy and lunatic and that's because we as humans don't just try to emphasize with ourselves. It's more easy to do so with a stranger than with our close ones due to the Common Law as the venerable solid bulwark of both liberty and property status laws been found be real improvements encouragement and assistance should be afforded to those to give to their ships constant employment and to start to learn from it as we all know, humans know evil that's the life path to understand the we should

rule as a prince.

A new principality that causes difficulties if it is not completely new but instead an exhibition it is difficult to form one natural problem inhering in all new principality mainly gladly changed their masters thinking to the better themselves Take arms against the ruler since we experienced they see the things they have become worse and you Prince must always

offence his new subject with both his soldiers must always offense his neutral ships with both soldiers and others can countless injuries that accompany his new conquest when land which have revealed once are taken in a second time it is more difficult to lose them now there remains to specify those for the second of the seat remedies the king of France had and those that one in the same situation might have so that he might be available to maintain a stronger grip on his conquest then difference those dominions which open being conquered and added to the long established state of him Who acquires them in either of the same province on language or they are not when they are an issue to hold an especially especially when they are accustomed to freedom Distinguished their family line or the Prince who ruled them first that the family line or the old Prince must be extinguished second to the neither the law nor the taxes be altered as a result they will become in a very brief time body with the old principality but when dominions are acquired to province that is is not familiar in language custom in love it is here the difficulties arise good fortune in much diligence go and leave their position must secure and durable by being in the space one sees travel as it is built on one quickly tragedy the province would not be plumber but once officer soldiers will be pleased to have direct records records to the Prince anyone who might wish to invade the dominance from abroad will be more hesitated than living right there the Prince can always with the greatest difficult to lose the other that better saluted to the same colonies on

one other place will act as support for your own stay either the Prince to his maintenance and a large number of infantry in Calvary he offends only those who feels who house has been taken and given to the new inhabitants who are only a small part of the state those colonies are not expenses they add more faith and they cate fewer fewer difficult to those who are hurt who pose a threat since they are poor and scattered any harm done to a man must be kind and remove from fears and down to a man's revenge by maintaining soldiers to do it since the colonies it's much more being obligated to consume all the revenues and the states in guarding its borders so thAt the procces become a loss this kind of defendse is asa usaeless as the other kind, colonization is useful, should make him self the leader and defender of the less powerful neigfhthbors and do all he can to weaken those who are more powerful, as soon as a powerful foreigner enter a province all who are less powerfull cling to him, move by envy atthey have for the one who has ruled over them; He has only to be on his guard the they donot seize to much power and autorithy, anyone who doesnt fallow this procudere will quickle lose what he has takebn and while he holds it, he will find full infiniti difficultiesand worries.

Those princes have not only watcxh out for presents problems but else for those in the futuro and try deligence to avoid them for oncx problems are recpognize ahead att time they can bve easy be cured. For reconigze a far the disease that are spreading in the state (whish is a gift givent only to

the prudent ruler), they can be cured quickly but when not having been recognized they are left to grow to extent that everyone recognizes them there is no longer any cure.

Because they know the war cannot be avoided but can only be put off to the advantage of others: You will see that he did the contrary of those things that must be done in order to hold one's rule in foreign providence, I will not criticize the enterprise the king undertakes

Part III

WHO IS IN CHARGE OF AMERICA OF AMERICA SCHOOL.

EDUCATION IS FUNDAMENTAL FOR THE MAN AND WOMEN.

\The State had seized control of the city schools 1995, fifteen years later, After the state had compiled its own record of mismanagement fewer than forty percent of third through eighth graders were doing math at grade level.

Administrative dysfunction there was little debate that this district desperately needed reform the ratio of administrator to students was almost twice the day average flags made-up 30% of the central Peru crisis about four times the ratio in comparable cities even some players are players yet payroll check and student data were habitually late and inaccurate tests and attendance data have not been entered for

months the computer routinely expat and report cards bearing one child named another child grace meaning the wrong student got granted or reward, most school buildings were more than eight years old and some were falling to pieces literally only 12.5% of network at all were college graduate, just the vector of the state would rate Newark was an extreme example of the country increasing nonic of racial segregation.

Bookers word that they will face a brutal fight with onions and machine politicians invested in the status quo. With 70,000 people on this payroll the school district was the biggest public employer in city of roughly 270,000 shaking it up Booker say was sure the active dissent coalition that had foiled his first mayoral bid I spreading rumours that he was gay Jewish oh close the republican electoral horse for white monied morning outsiders.

Both view orphans gold districts as beholden to public Workers Union and politicians patronize machines rather than children's in both were part of the growing natural movement seeking to reimburse education.

Rghteous tone of the moviment. Many o the Of the opponent were descendants of all civic right establishment, urban determinate to protect public job in cities where secure employme rare, It seems that every side in the education debate had its eyes on a different prize. Reformers saw in district like Newart and opportunity to an opportunity to prove that that system built around unionsand large

public bureaucracies where themselves an obstacle to learning.

While the effort benefited many individuals school and children it didn't dent the problems in the large system. They become known as venture philanthropist inconsistent self investors rather than Donald seeking return in the form is sweeping changes to the public schooling

in the beginning democratic politicians almost universally sponsored the cause as did many African American leaders perceiving those efforts as straight to the democracy based in cities unions public sector jobs and politicians who doled them out. They are questioning take credibility of the movement to reform education the America's lowest income black and brown schoolchildren that was led by white elite finance by some of the richest men on the planet label them billionaire boys club bike indication historian Diane Ravitch a one time freeform who emerged and prominent opponent of the movement she had once embraced Investors bet on people not on business models because they know successful people find a way to be successful.

He called his political philosophy "pro-market democratic", looking to government also private and faith-based initiatives last poverty parting father from the standard playbook what would have been democracies Booker becoming Norwich champion of

charter school arguing that the poorest children's like the riches should be available to ocean out of bad school embracing vouchers for private schools for the same reason.

Booker was a valuable assets form the almos universally white, rich republican voucher movement.

Define public education not as publicly guaranteed space and publicly run, publicly found buikding where our children are sent based on their zip code, public education is the use of public dollars to educate our children at the schools that are best equipped to do so public schools magnet schools, charter schools , jewish schools.

Democrats who embrace charter schools opposed the influence of teacher unions on the party. They ultimately formed a political action committee ddemocrats for educations reforms , with bookers as one of tghe star foundraseirs.

Booker encouragements, newart spawned some of the top charter schools in the country including fifteen run by the nationally respected respected networks uncommon schoolsand kipp.

The issue of education reforms had strong crossover appeal for a republican candidate in a heavily democrates state. The federal gobvertment agresevilly promoted the growth of suburbs with home mortgagesubsides construction of new interstate highways to whisk midle-classbreadwinners to and from jobs in urban center

flipped the city's makeup in one decade from two-thirds white or two-thirds black. Newark and elsewhere urban renewal became known as "negro removal"

The federal home loan program had redlined almost all of Newark deeming it too risky for mortgage or lending, making renovations unaffordable. The school district allowed the remaining white streets of traffic to be predominantly African American schools where substitutes do have to 1/4 of the class in a school with high neighbors. The NAACP reporting 1961 textbooks were either not available so much in such a poor condition as to be or not value as tax. We found that some class library libraries consist in nothing but comic books also that residents were approaching in majority in the city they were political powerless to force local officials to address evidence of police brutality through housing in collapsing public education. Book A was the first Newark mayor in 44 years not to be indicted.

The court ordered the legislation to expend billions of dollars to equalize funding pretending a windfall for Newark. The shift was touted as victory for democracy but the school board election was held when there were no other races on ballot, and turnout was minimal. The board can under the control of those who guard most followers on the poll unions in the city most powerful political boss for decades. Educators since incidental to the purpose of the school district seeking consensus will undercut real reform. Book A portrait of the new world school.

at the price of a very different sort of laboratory where the education reform movement could apply to the strategy to no one of the nation most troubled school district, seeking consensus would undercut real reform. Booker portrayed the Newark schools as prize of a very different sort: a laboratory (le turning newarks kids into lab rats...) where the education reform movement could apply its strategies to one of nations most trouble school districts.

City poised to upend the forces impeding urban education, where his money could make the difference and create national model, how little he knew at the time about philanthropy, little time to devote to foundation. he said his goal in addition to helping the newark nschools was to learn from his experience and become better philanthropist in the process. (again lab rats) more than academics involve helping children's navigate their day in day out challenge on growing up in poverty from neighbourhood rivalries to health issue. Society should value those rule and what are the things they're getting on the way of that??.

, his hope was to make teaching in urban school one of the most important jobs in America as he saw as the truck the most talented college graduate as working at Facebook he couldn't succeed without having his pick of the best people in business. He saw the problem as systematic and economic whole she view it from the ground level through the needs of individual children . their started goals was not simply to repair education in Newark but develop a model for saving in all urban america and

do it in five years. The language of national models left little room for attention to the unique problems of Newark its schools or its childrens. His primary goal was to find a way to attract , nature , and handsomely rewards top teachers. Words teachers who transformed students lives receive the same pay as the deadwood “who would want to work in a system like that” Zuckerberg wondered aloud about circumstances to applied to almost all America’s 3.3 millions public school teacher.

Newark schools which Zuckerberg had never visited , nothing moved fast much was already broken and most people were afraid of change. Mayor conceded, whoever that he did not know at the time what the initiatives would cost. Zuckerberg , Christie and Booker expected to arrive at their national model within five years , King believe it could take almost that long to change the systems fundamental procedures and to raise expectations across the city for childrens and schools.

King has question about five year plan overseen by politician who were seek higher office. Mark money is not going into schools classrooms who expressed concerns about reactions in Newark whose residents would soon learn from national television that there was grand design transform their schools community awareness piece andberg else critiqued books proposed press release for placing too much emphasis on the initiatives national import, rather than on what was in for Newark. How they are going to do it that was just the detail to turn Newark into a symbol of educational excellent for the nation. but as

teachers, they knew that transformation education would require for more than strict accountability, performance incentives and heightened emphasis on data.

They knew of no model for addressing them other than child by child, teacher by teacher, school by school from the bottom up but beyond tools teaching skill what made Williams powerful as a teacher was her connection to her students.

We have to say “we understand this very hard for you but we are not going to use that as an excuse to hold you to a lower standard, and you can’t allow it to make you lower your own standards for yourself”

The mindset at West side was these kids can’t AP.

“They are nowhere near ready for it, they are incapable”. She said. Worse still most of the students appeared to have the same expectations of themselves intently studying the schools academic results and developing a reform strategy rooted in supporting and strengthening the teaching staff. It’s not about being the boss but being the servant willing to wash other people’s feet more than anything it’s about understanding you don’t have all the answers this is much bigger than me it’s bigger than Cory Booker it’s bigger than Barack Obama it’s recognizing that you’ve got to be humble.

They envied the charter’s freedom to hire the best teachers and not set their schedule based on students’ needs—unconstrained by union contracts, tenure law and the district bureaucracy. But Brick’s founders resolved to work in district schools. They

believe the same chartters deliberately avoided those students or pushes them out.

The Avon teachers felt almost perasonally insulted by the nation that the district was to broken to fix. Because so much negative is happening in Newark

QUEER HISTORY MAKE ME QUEER

for the most part of my life if it the I am who I am because of Them, the gender the give me life when i need the most , They teach me how to be me in world full of hate, the LGBTQIA+ Have the gentle and beuty withen us and that make us queer public or in our home. History activist in the community in appalanchia is where , when and how i finally discover MYSELF despite THE NEW YORK TIME message dedicate and insentive violence agains “ME, WE, and OUR, Trangerder “ community its Ignominy and Odium i personally feel ashame more then ever a hateful message the comes from a NEWS the I have so much respect, THE NEW YORK TIMES FAMILY its alll i have ever believe EVEN when i coulnt even affort it and that make you special dont take away that from us there for me to see that “THE NEWY YORK TIMES “ having a bad moment can put us in the wrong part of history its not what represent us who we are, but what we are inside and how we treat others Respect is earn not given, we are here not passing by some of us transgender have suffer from the moment we are

born because our body sometimes its not what i would ask if i have a choice when we are born and you must not forget not everyone is a caterpillar, even when we are a beutifull and a great creation of mothger nature because what we are inside is what ourmother nature want us to be, wether we choose to dress as female or male because thats what our parents wants to see, its crusial for same of us the are trap with a women inside us or male, psychologys and anotomy teaching us what we are inside us is what define us its fascinated because we wish to be that person, lets educated theworld descrimanation agaings our community on the twenty first centery its disrecpefiull to those who spending times fight gender equality in the past life we shoukld pay respect as Gender dysphoria definy as who we are inside most of my. Life i feel my inner me is a lady and then i remember as child who was so innocent was tear apart abuse by a family i couln't safe himn but then but now i can speak for me and its wron what a message can do when it come to violence. LGBTQ+ our pass is history AND top remeber is painful and tru that we shouldve learn we want yiour wife or husband we just want to be inclusive in th modern world as the 21first history there family that abandoned there child because of who we are, as our company TNYT ONE of my grates paper of all time having this type behavior i dont just disagree but its shamefull for our communityy as my fighter "heroes " dying for my freedom in the STIONE WALL WE must condene this behavior in educate the world, the hate the workd face on a dayly baasic

have most of us anxious and sometimes we lost even not one BUT multiples of beautiful sister and brothers there are my people who left a husband, brother and many of us in the world wondering why when the live of party and the bravery of human kind and all the beauty in the world the itself give us only stay in memory when we instead encourage to love one another are sending message the lifeless threat "OUR community on a daily living moment the we could lost another soul, The nonbinary issues the society present us in. the modern days should be and must need to be erase from the now and the tomorrow as if come, the research from FORBIS 375 Transgender People Murdered In 2021-'Deadliest Year' Since Records Began Against OUR Transgender and Community Sadly, WE as human don't see the damage we do when we send negative message to our community WHEN WE ACT LIKE THAT under OUR HANDS IN LIFE WE HAVE KILL SOMEONE BECAUSE, WE ARE TELLING BULLIESTHATS OK TO DO HARMS TO OTHERS,WHEN CAN WE LEARN ? can be different let's just not repeat history by sending negative message on our people fatally we can fix things we have a full generation behind us teaching them to who they love to be it's the most beautiful thing a human can do by embracing them love is a word but when we practice that we will see the god gives us caterpillar so true their process in life become butterfly let's not be us to cut their flies and to my sister and brothers embrace yourself you were created with same hands of the greatest

creator in human kind WHOEVER YOU ARE
WHETHER YOU WORSHIP IN YOUR CHURCH,
KNEEL IN YOUR TEMPLE OR PRAY IN YOUR
MOSQUE YOU AND I ARE CHILDREN OF ONE
FAITHFINGERS OF THE LOVING HAND OF ONE
SUPREME BEING A HAND EXTENDED i love you
and please dont forget you are a unique and no one
cant tell you the opposite.

To The New York time now i would not ask for
apologies but to show me with actions the our
transgender are integrated in the roles of working for
our company with that whether you apologies or not
they are part of the world and should be part of our
working class community and please treat them
as equal as anyone else tomorrow is we can start
fresh by making them welcome in our community

TO ALL to insensitive violence against our TRANS
Community, and here we are trying to understand
why the reason we have so much hate inside of
ourselves, i cant imagine how horrible must be as
someone who as a writer which is has no gender, a
writer can be anyone is not just trying to tear
apart as Humanity where is our humanity, to

PART V

Slamic what a wonderful word for all of my people

Just not little long ago when earth was created and we have become this far and still not have a world where we can travel around the world and feel everyone is equal when it comes to humans in earth god creations is one and multiples and for that we has to respect each and one of us netherless the animals and floras around the world if we take care eachother we will be a grates world the one day no one will be afraid of travel anywhere why we invented all those rule, why can we know how to teach education to anyone around the world and we can understand what humans right it's, "we" cant leave the women's, and children's rights, there is nothing more wonderful to understand the are not just one but multiple countries the we can't go because humans right have no access to defend women's and children's as we fight for an unborn babe we can't fight for a born babe then where is humanity kind it's

Tell me how, till today there is still multiples country's where we can have the equality respect for one and each of "US" there no one that's perfect we all have personalities disabilities but we all have the rights as humans, it's just unbelievable the way we have run the world we can't keep going looking for the best just for ourself but everyone not just one elevate my brothers and sisters it's just humanity to do the right, if we has to us ourself is it's good you know what inside inner you tell you because at the

end of the night when we all choose to good to be our soul will know we did good, violence is not a way to look for our best entre inclusion in educations it's for everyone and for all of us.

, and finnally as leaders our role is to live by example and transform society into a United nation not killing one to another we can't continue in living a life where our mothers wife and lover can't count in us they are part of our community and the best of us as Gay Male I respe and admire women's achievements in their life when it gives a fruits "children's" but lets not forget it's their decision on how to live and bring life to earth, same way our Mother Nature if we take care of then will take care us with responsibility and respect as a born child we should look for their rights as soon is "Childs " being born, but we cant talk about many things that happpens in society bevcause there is a;lways those who insted learning from others and educated ourself about many wrong things that happens to us durin the procees of became one itself respect special to those who tru the powwer of god and the universe are capable of bring "fruits" to earth, the Pain is part of the proccess to make us understand what has happen to "US" its unacceptable in this world when the power falls into the wron hands can leave us with so much damage in the 1950 survivors of the holocaust the happens in hands of adolf hitlers between a F"K AND HORRIBLE i do know of the massacre of the people on power is hurt us in one on another way the traumatic expierience for

those with so much respect to those who die fighting to protect people as any human we can live in a world where "WE" as leaders can live with that soul knowing and see starvation, bombing destroying our community, cities and just look at the other side that's not why we choose our leaders, what a shameful history for those leaders that torture, rape, by the nazis or the soviets it's traumatic just talk about how a human can do so much harm to humans we could do better in this world "your brothers are my brothers, your sisters are my sisters your mothers are my mothers, your fathers are my fathers "

Leaders we must condemn and seek for the best of "our people " why you as leader love everyone when you are in campaign but when they are in poverty and hunger suffering where we as leader are, why can't we count with any leader why we send our people fight at war instead send the leaders to see who will win any war the "WE lost OUR son, husbands, BROTHERS SISTER" BECAUSE WE AS LEADER HAS AN EGO WORSE THEN ANY INHUMAN LIVING, our people need protection and if we can't deliver that we must step down from where we choose to lead and let someone else to lead to make sure our people stop suffering from, wars, hunger, and violence insensitive by leader the only look for the best between and not for the best of the people in needs we understand the humans deserve basic human rights whether you are women, children, there should be as much human moral as are, our generations couldn't keep seeing the violence against

any women or child the need human rights. Our people need us now and we must act against those who are insensitive violence against each other there is multiple way to understand how we make our city, our community, the way we have treat our community its just awful the way we see our people falling many people have bury their loved ones our new ones can be our loved one, mothers and sister deserve protection whether there are with or without protection its our duty to protect them.

The history is to teach us and to learn from that, war again taken our citizens lives, we often let our ego control us and lead us to the wrong part of history leaders its time to act and work together us one world united we make a better world.
